About this property

A triumph of architecture and interior design vision, the design proposals take advantage of its location, maximising the stunning views. The architectural language of the building has been carefully considered, and with a material palette of rustic stone and timber influences, the modern and striking façade effortlessly blends the property into its hillside and coastal location.

The scheme has been designed with the primary living accommodation and the owners suite situated on the upper levels to best appreciate the sweeping vistas of the bay, with further guest/family bedroom suites, a wellness spa, a fully-equipped gym, full back-of-house area, bar, wine cellar, and cinema on the lower floors.

An integrated garage for six cars allows for personal collections to be showcased, whilst low maintenance private gardens and southerly terraces make the most of the stunning views.

With work ready to start on site immediately, this unique and very special site can be sold as is, or delivered turn-key by a development team with a deep understanding and experience in the delivery of super-prime developments, having been involved in some of the world's most prestigious residential projects.

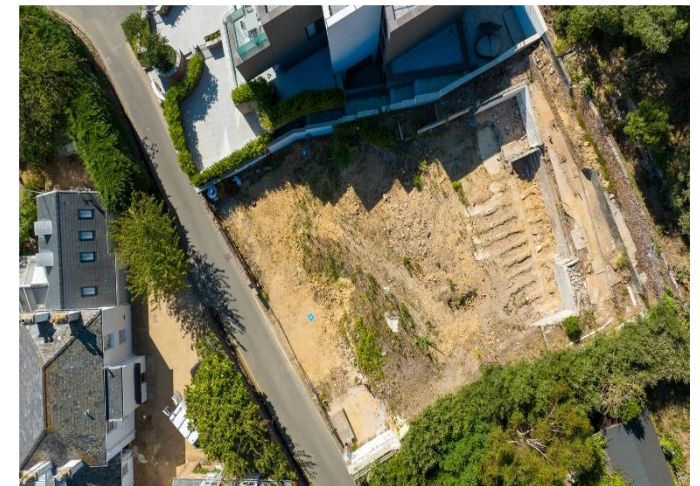

Once complete, it will undoubtedly rank as one of the finest and most spectacular homes on the Island.
